Email: contact@jaltediyefoundation.org

JDF at a glance

A nonprofit working at the intersection of social education, community action and technology.

Our identity

Jalte Diye Foundation (JDF)

A nonprofit organization focused on social education and positive social change.

Our purpose

Advance global peace by encouraging equality, inclusion, environmental responsibility and mental well-being.

Our approach

Combine learning, community engagement, environmental initiatives and technology-enabled projects.

OUR GUIDING IDEA

Holistic Social Education can bring Global Peace

Official website <https://jaltediyefoundation.org/>

Why social education matters

Lasting social change requires more than information, it needs awareness, empathy and participation.

CHALLENGES WE SEEK TO ADDRESS

1

Discrimination & exclusion

Build awareness, respect and more inclusive communities.

2

Environmental pressure

Encourage responsible choices and local environmental action.

3

Mental well-being

Promote understanding, healthy relationships and supportive communities.

4

Gaps between learning & action

Connect knowledge with practical projects and participation.

JDF's response: make social education practical, accessible and connected to community action.

A more peaceful world begins with informed individuals.

VISION

We envision a world in which the entire human population cooperates as a family for global peace.

MISSION

Providing social education globally to the humans for peaceful life and harmonious relations.

We aim to help people learn, reflect, collaborate and translate awareness into meaningful action.

Our work spans connected social priorities

We use social education as a connecting thread across people, planet and opportunity.

Social education & peace

Critical thinking, inclusion, social harmony

Environment & sustainability

Plantation, biodiversity, responsible living

Mental well-being

Awareness and healthy relationships

Education & skills

Learning, student projects, practical skills

Women in STEM

Participation, mentorship, project experience

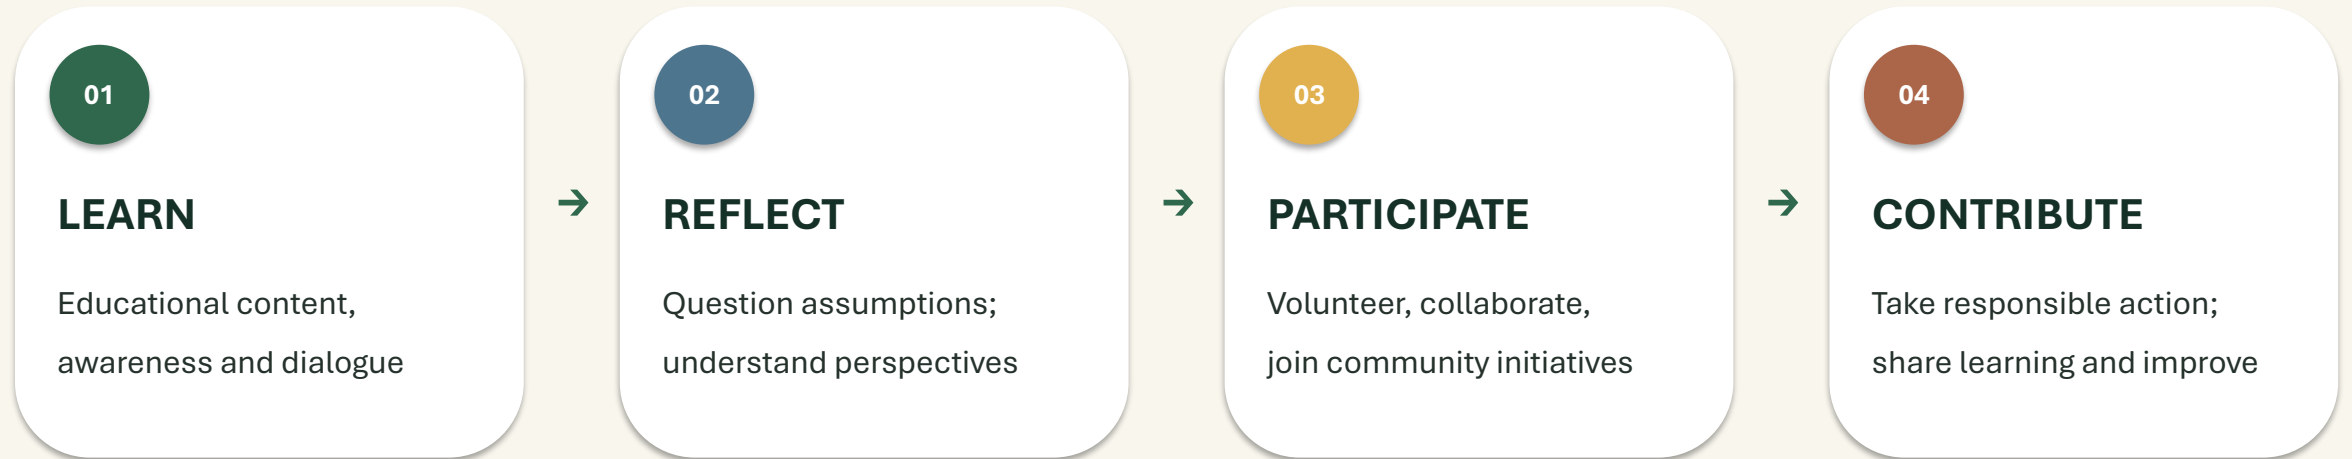

Technology for social good

AI-enabled content, tools and research

The focus areas are complementary: progress in one can reinforce the others.

From awareness to action

A simple model for connecting education with practical participation.

Learn • Reflect • Grow — the spirit behind our educational outreach.

A portfolio of initiatives for social good

Each initiative explores a different route from knowledge to impact.

GVan

AI-assisted microforest initiative

Environment • Community participation • Greener spaces

Cogentic

AI-assisted educational content generation

Learning • Communication • Thought-provoking ideas

Nurolab

EEG and AI research for mental health

Research exploration • Data-driven inquiry

WiSTEM@JDF

Women in STEM initiative

Mentorship • Skills • Project participation

Initiative descriptions reflect current areas of work and exploration; implementation and scope may evolve.

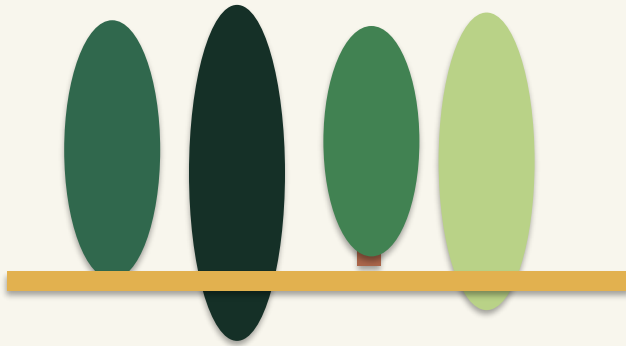

GVan | AI-assisted Microforest Initiative

Bringing environmental education, technology and community participation together.

THE IDEA

Support microforest planning and environmental awareness through technology-assisted resources.

- **Community action:** encourage participation in plantation and greener-space initiatives.
- **Education:** connect planting activity with biodiversity and environmental responsibility.
- **Technology:** use a digital tool to support planning and engagement.

Seasonal ambition discussed: planting more than 500 trees during the rainy season.

Project platform: reallyrealeducation.org

GVan

Cogentic | AI-assisted educational content

Making educational ideas easier to create, communicate and share.

**LEARN
REFLECT
GROW**

CONTENT → CONNECTION

WHAT IT SUPPORTS

- **Educational outreach:** thought-provoking quotes and short-form learning content.
- **Creative workflows:** AI-assisted support for generating content and visual templates.
- **Consistent communication:** helping JDF share ideas around equality, environment and social well-being.

Purpose: turn important ideas into accessible, shareable educational content.

Project platform: reallyrealeducation.org

C

A hungry child cannot learn; a fed child can change the world.

Basic material security food, shelter, safety is not separate from the project of education and development; it is a prerequisite without which all other investments fail.

Jalte Diye Foundation
Holistic Social Education for Global Peace

N

No one should go to bed hungry; not in a world that grows enough. Food is not scarce; fairness is.

Observing World Food Day.

4

QUALITY
EDUCATION

A conversation on a bus can teach more than a semester of silence.

Listen to the stranger, their life is a textbook you have never read.

Jalte Diye Foundation
Holistic Social Education for Global Peace

REDUCED
INEQUALITIES

A society that educates and empowers its daughters builds an unbreakable foundation for tomorrow.

Investing in girls' education and leadership creates lasting change for everyone.

Jalte Diye Foundation
Holistic Social Education for Global Peace

We are all human before we are anything else.

Your passport your god your flag these are costumes. Underneath the same fragile heart beats.

PEACE, JUSTICE
AND STRONG
INSTITUTIONS

Nurolab | EEG and AI research for mental health

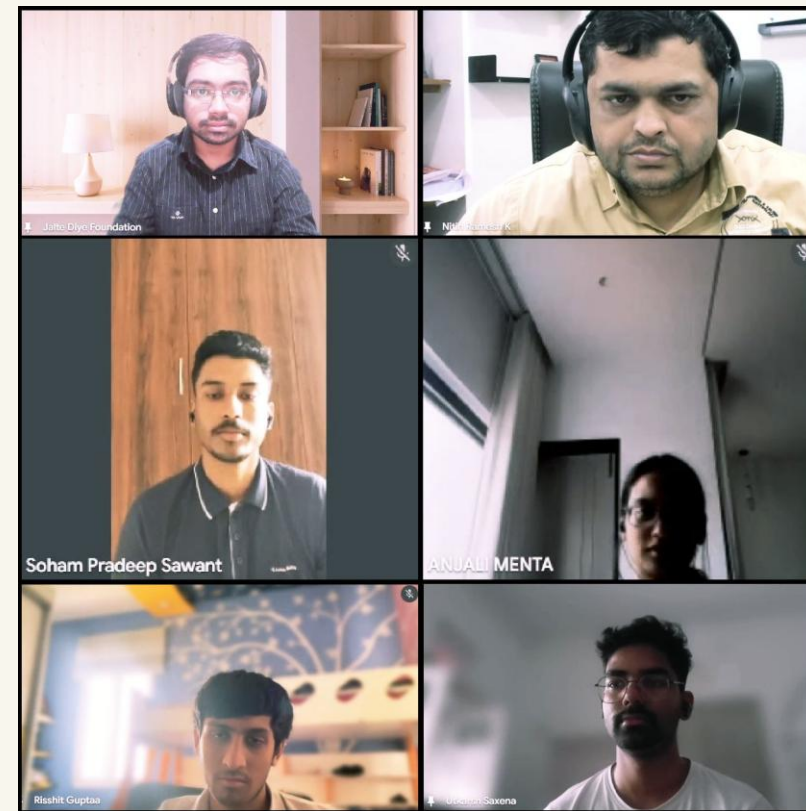

An exploratory research initiative—not a deployed diagnostic or clinical service.

CURRENT DIRECTION

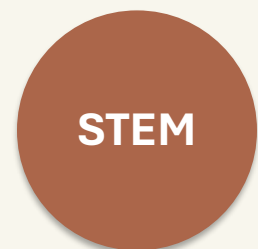

- **Research focus:** explore EEG datasets and AI methods relevant to mental health research.
- **Potential questions:** personal baselines, trends and explainable patterns.
- **Responsible framing:** research findings are not a substitute for professional diagnosis or care.

Collaboration needs: research mentorship, data expertise and responsible AI guidance.

WiSTEM@JDF | Women in STEM

Creating pathways for learning, mentorship and practical project experience.

LEARN

- Project participation
- Skill development
- Mentorship and peer learning
- Exposure to real-world challenges

BUILD

CONNECT

A collaboration with Phenoble Software Pvt. Ltd. has supported the initiative's mentorship/internship direction.

HOW PARTNERS CAN HELP

- **Mentors:** share technical and professional experience.
- **Institutions:** connect learners with projects and resources.
- **Employers:** offer talks, exposure and suitable opportunities.
- **Volunteers:** support coordination and learning activities.

Events and initiatives that bring the mission to life

JDF uses campaigns, learning activities and community participation to connect ideas with action.

Environment & plantation

Seasonal plantation planning and the GVan microforest initiative.

Mental health awareness

Virtual awareness campaign focused on well-being and understanding.

Sustainability learning

Engagement with Energy Swaraj Foundation training and energy awareness.

Educational outreach

Thought-provoking quotes and short-form content through Cogentic.

Volunteer recognition

Acknowledging participation and contributions to shared initiatives.

Student collaboration

Project-based participation and learning with student teams.

Event names and descriptions are presented as initiative areas; add dates, photographs and outcomes before external use where available.

There is a role for every kind of contributor

JDF welcomes collaboration from people and organizations who share the vision of social education for global peace.

FUNDERS & DONORS

Support defined projects, materials, outreach and responsible evaluation.

VOLUNTEERS

Contribute time, communication, coordination, skills or local engagement.

EDUCATORS & MENTORS

Guide learners, review content, advise research and support skill-building.

INSTITUTIONS & PARTNERS

Collaborate on campaigns, internships, events, research and community projects.

We aim to match contributions to clear needs, responsible delivery and transparent communication.

Help turn social education into meaningful action.

We are looking for partners who can help strengthen and scale practical initiatives through:

- Project funding and in-kind support
- Volunteer and mentor participation
- Environmental resources and local partnerships
- Research, technology and educational collaboration
- Support for learning, outreach and impact measurement
